

A newsletter for the Auraria Community

FALL 2008

The Auraria Campus & the Democratic National Convention

The Auraria Campus recently served as next-door neighbor to the Democratic National Convention, which was held from August 25th–29th. While classes were cancelled due to the significant impact of this historic event on the normal operations on the campus, a limited number of AHEC staff continued to protect and maintain the campus around the clock. Staff from all divisions of AHEC performed a variety of support functions, from serving as building monitors in the nearly-empty classroom buildings, to parking cars of delegates and media, all the way to preparing meals for overnight staff. Auraria also activated its Emergency Operations Center (EOC) during the DNC, which allowed for integration between Auraria Campus Police, Facilities Management, and other external entities, such as Denver's Emergency Operations Center. The EOC also provided a communications link with critical staff of the three institutions.

Ultimately, the goal of AHEC staff during the DNC was to make sure the campus was able to fully commence normal operations on Saturday, August 30th, when classes resumed. In a period of less than 24 hours, a flurry of activity occurred. For example, barricades and fencing were removed, and garbage cans, picnic tables, and benches were all relocated to their original homes. The year-long planning effort paid off when students returned to the classroom, and found the campus exactly as they had left it.

NEW MEMBERS TO THE AURARIA BOARD OF DIRECTORS

Claire Miller and Mary Lou Pierce will share the responsibility of faculty member to the Auraria Board for the fall 2008 semester, replacing Dr. Roxanne Byrne.

Claire Miller

Claire is an Associate Professor of Biology and Chemistry in the Science Department at the Community College of Denver. She has served as Chair and Co-chair of Sciences for several years. She has recently accepted the position of AQIP Accreditation Liaison, and is playing an integral role in the accreditation process for CCD for the next two years. Dr. Miller received a Doctorate degree in pharmacology from Meharry Medical College in Nashville, and an Associate of Applied Science in graphic design from the Art Institute of Colorado. Claire has recently served in various capacities as part of the ongoing effort to encourage students to enter STEM disciplines, through the ACES program, and the Jumpstart into Aerospace program at CCD. She presently serves as secretary for the Community College of Denver Faculty Council, and she is a member of the Project Management Team for the Auraria Science Building.

Mary Lou Pierce

Mary Lou Pierce is Assistant Professor of Mathematics in the Center for Educational Advancement at Community College of Denver. She began at CCD in 2003 and is currently teaching in various developmental programs including the FastStart accelerated program and Self-paced math classes. Mary Lou has a Master of Arts in Curriculum and Instruction from Colorado Christian University. She serves as Course Captain for Math 090, providing mentoring and materials for teachers and is a representative to the CCD Faculty Council.

Andrew Dunbar, Student Representative to the Auraria Board

Andrew is currently in his second year at the Community College of Denver and replaces Lia Peckman as the student representative to the Auraria Board. He came to CCD after a semester at Arapahoe Community College which he attended immediately after graduating from Cherry Creek High School in 2007. Andrew states that he is very pleased to be able to serve his school and the Auraria Student Body as a whole this upcoming year. He also goes on to say that he is eager to give back to a place in which he has gained a lot. Andrew is also involved with the SACAB sub-committee, the Sustainable Campus Committee, and is pursuing a degree in Political Science.

AROUND AURARIA

SCIENCE BUILDING ADDITION AND RENNOVATION PROJECT

The Auraria Higher Education Center's (AHEC) Science Building Addition and Renovation Project includes the construction of a 197,00 square foot addition to the existing Science Building, renovation of 116,000 square feet of the existing Science Building, as well as the renovation of approximately 26,000 square feet to the North and South Classroom buildings combined. The entire project cost is \$120.28 million.

Through this endeavor, AHEC is committed to sustainable design and construction guided by the State of Colorado's High Performance Building Certification Program and the United States Green Building Council's (USGBC) LEED Program. LEED stands for Leadership in Energy and Environmental Design, and through the use of environmentally conscious and energy efficient designs and strategies, buildings are awarded points based on their achievements in areas such as reducing electrical consumption, heating and cooling demands and improving the indoor air quality of a building. Through the program, a building can achieve certification, Silver, Gold or Platinum ratings. In the Science Building, all fume hoods in labs are equipped with variable air volume control, reducing the amount of air exhausted from the building and thereby reducing energy consumption. The Science Building Addition is projected to attain LEED Gold Certification, and the Existing Science Building Renovation is anticipating LEED Silver Certification.

The construction and renovations facilitates Math and Science needs for a variety of departments for the Community College of Denver (CCD), Metropolitan State College of Denver (MSCD) and the University of Colorado – Denver, Downtown Campus (UCD). These institutions identified their needs in a Program Plan updated in January, 2007. It is expected that building changes completed during this project will meet the needs of each institution until 2015. The project has

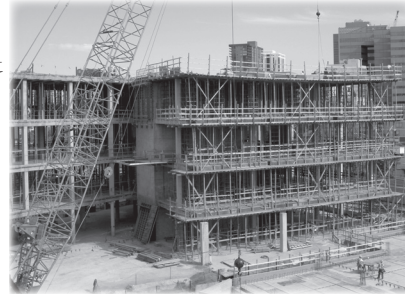

been designed by Anderson Mason Dale (AMD) Architects and is being constructed by a joint venture between Haselden and Barton/Mallow Construction companies. The entire project is being managed for AHEC by Jacobs.

The Project Schedule overcame an early setback, with the discovery of asbestos containing materials in the soil. After a three month delay and a \$3 million cost to remediate the soil, the Construction Schedule has proceeded as planned, with every major milestone being achieved. Currently, concrete is being poured to establish the four levels of the addition for the north half of the building addition, with basement utilities and under drain system installation ongoing for the south half of the building addition.

Ellipse, the move management company contracted by AHEC has developed a move plan to assist in the transition from occupying the existing building to the addition. This plan was developed in collaboration with representatives from each institution, Jacobs, Haselden/Barton Mallow and AMD. They are in the process of refining the move plan to identify which departments are moving into the new addition, the temporary location some of these departments are moving to, and determining when the move will take place.

As the structure of the addition continues to progress and rise above the construction fence, the public will be able to watch the progress throughout the coming months. When finished, the Science Building of the Auraria Campus will be a prominent structure along Speer Boulevard.

—Jenn Machacek, Jacobs

AURARIA CAMPUS POLICE DEPARTMENT NEW HIRES

Jackson Burkin

Jackson Burkin's employment with the Auraria Campus Police Department as a Police Officer began on March 1, 2008. Before working for the Campus Police, Jackson worked as a Dock Worker and Bartender. Jackson received his POST Certificate from Red Rocks Community College in 2007. His interests include wakeboarding, snowboarding and playing guitar.

Clinton Cator

Clinton Cator began working as a Police Officer in the ACPD on May 1, 2008. Clinton received his POST Certificate from the Arapahoe Community College in 2007. Prior to coming to work for Campus Police, Clinton worked as a School District Safety Officer in Douglas County. He was born and raised in Lakewood Colorado and enjoys training dogs, fishing, hunting, hiking and spending time with family.

Bobby Forrest

Bobby Forrest became the new Administrative Sergeant for the Auraria Campus Police Department in July of 2008. Bobby brings a wealth of law enforcement experience to the Campus Police Department having worked in campus, municipal and state settings. He has worked as a Police Sergeant with the New York State University Police Department, a Lieutenant with the Cherry Hills Police Department and a Chief of Police with the Berthoud Police Department. Additionally, Bobby has worked as an investigator with the Colorado Attorney General's Office as well as a Police Agent and Detective with the Lakewood Police Department. He has a Bachelor of Science degree in Physical Education with a minor in Biology, and was born and raised in the borough of the Bronx in New York City. Bobby's hobbies are all centered on participating in or watching sports and admits that at one time he had season tickets for the Broncos, Rockies, Colorado Buffs football, Denver Pioneers hockey team, and a half share for the Avalanche.

Neil Hamilton

Neil Hamilton began working for the ACPD in May 2008 as a Police Officer. Neil was in the Marine Corps from 2003-2007 as a Finance Technician.

Neil received his POST certificate from Highlands Ranch Public Safety Training Institute in February 2008.

Sergio Hernandez

Sergio Hernandez was hired as a Police Officer and started working for the ACPD on May 1, 2008. Sergio worked as an Auto Body Technician before coming to work for the Auraria Campus and graduated from the Law Enforcement Academy at Aurora Community College in 2006. Sergio grew up in California and moved to Colorado in 2000. He enjoys playing jazz on his alto sax, working on cars and home improvements.

Jerry Lara

Jerry Lara started with the ACPD on June 1, 2008 as a Police Officer. Before becoming a Police Officer, Jerry worked as a Mechanic and Auto Body Technician. Jerry has been a student on the Auraria Campus since 1998, receiving his Associate degree from the Community College of Denver in 2000 and is completing his Bachelor's degree in Accounting from Metro State. Jerry graduated from Red Rocks Police Academy in 2008. In his spare time, he likes to go out with friends and is active in Sport Bike Racing.

Charisse Romero

Charisse Romero was hired as a Police Dispatcher and started with the ACPD on September 1, 2008. Before starting with the ACPD, Charisse was in the military and worked as a Russian Linguist. Charisse is currently on maternity leave after giving birth to a baby boy. She will return to the ACPD in mid October.

Auraria Early Learning Center Involved in City Programs

The Auraria Early Learning Center (AELC) is excited to be an active partner in the new Denver Preschool Program and part of the Mayor's Office for Education and Children.

The Denver Preschool Program is a tax initiative that passed in 2006 and helps Denver residents with the cost of child care tuition. By providing more reimbursement to those centers with a high quality rating, parents are encouraged to choose high quality programs for their preschooler. AELC received a 3 Star Rating by Qualistar in 2007. This is considered high quality and gives families a great value. The Denver Preschool Program is available for all income levels. The Center currently has 15 families that benefit from this program. The Center also receives mini grants from the tax initiative. AELC uses this funding for ongoing professional development of staff and for purchasing educational and outdoor play equipment. These grants ensure that the Center maintains high quality to better serve families.

AELC has also been awarded a separate grant from the Mayor's Office from their Quality Improvement Project. This grant has allowed AELC to hire a Family Outreach Coordinator, who helps families' access resources, navigate the systems and help them to know if they qualify for the Child Care Assistance Program and the Denver Preschool Program as well as offering additional assistance.

For additional information on the Auraria Early Learning Center, please call 303-556-3188.

We are going GREEN!

If you would prefer an electronic version of the Auraria Update newsletter, please email Julie Hughes at hughesj@ahec.edu. This newsletter, which is published twice a year, contains articles of interest for the Auraria Campus community. State Top Achievement Recognition Award

Clicks! Copy and Printing Services Manager, Steve Homiak, has received the State of Colorado's Division of Central Services "Partnering in Success" award, which recognizes exemplary employee performance. This award is in support of Governor Ritter's Government Efficiency

and Management (GEM) initiative which recognizes outstanding initiative and creativity that results in improved service to customers, greater efficiency, effectiveness, and cost savings. Steve was nominated for this prestigious award by the Regional Manager of the Department of Personnel & Administration, who states in part in his nomination letter, "Steve's commitment to the State is certainly award-worthy. The cooperation between Clicks! and IDS is truly unique in the State system. It is obvious with Steve's leadership, his staff has performed at a level typically found in the private sector. With this quality, he has established Clicks!, his staff and himself as an integral partner for State printing. Steve's staff collectively has a 'can do' attitude. This only comes with respect for whom you work and pride in who you are doing it for." Congratulations Steve and the entire Clicks! team!

"TIVOLI SOUTH" CONCEPT GROWS IN PARTNERSHIP WITH CLICKS! COPY CENTER & AURARIA CAMPUS BOOKSTORE

The Division of Student & Auxiliary Services is pleased to announce the opening of its newest Clicks! Copy Center full-service outlet in the South Classroom, in partnership with the Auraria Campus Bookstore. Located adjacent to the Stop Gap cafeteria and student lounge, the new center opened just in time to handle the needs of students returning for the fall semester. Prior to spring semester, additional enhancements to dining options and the student lounge space will take place, bringing together the vision for a true "Tivoli South" concept.

In addition to copying and printing services, this location also carries school supplies, scanners & bluebooks, greeting cards, postage stamps and much more! Be sure to check out the great selection of Community College of Denver (CCD) merchandise such as clothing, mugs, report folders and insignia wear. A textbook pick-up service is also available for students, helping them save time and avoid the crowds normally associated with the beginning of classes.

A number of CCD faculty and staff toured the new "Tivoli South" center during the first weeks of the new semester and everyone was excited about having this convenient resource on the south end of the campus. "This is fantastic," said one staff member. "It will be a great time-saver for our departments who need to get their copying projects done, but don't have the time or staff to complete them otherwise."

In the weeks since opening its doors, business has been brisk, with more than 250 textbook pickup orders processed and numerous students taking advantage of the convenient copy services and merchandise selection.

So, the next time you're in the South Classroom, be sure to visit this newest addition to the Auraria Campus...you'll like what you see!

Following are business hours and contact information:

Monday - Thursday: 7:30 a.m. to 4 p.m. Phone: 303-556-COPY (2679)
 Fridays: 7:30 am to 2 p.m. Fax: 303-556-5333
 Closed weekends E-mail: clicks.south@ahec.edu
 Supervisor: Donald Schmertz

The follow lists a few insignia products you'll find at Clicks! South:

- Full zip sweatshirts
- Men and women's polo shirts
- Men and women's t-shirts
- Baseball caps, beanies and style hats
- Insignia coffee mugs
- Insignia water bottles
- Insignia portfolios, notebooks, planners and folders
- Insignia key chains and lanyards
- Decals
- Insignia book bags
- Diploma frames
- Eco-friendly bags

THREE FROM AURARIA PARTICIPATING IN THE 2008 DOWNTOWN DENVER LEADERSHIP PROGRAM

Metropolitan State College of Denver, the University of Colorado Denver and the Auraria Higher Education Center each have a staff member participating in the 2008 Downtown Denver Leadership Program. These participants are:

Metro State: **Sean Nesbitt**, Director, Facilities Planning and Space Management
 UC Denver: **Linda Olson Brooker**, Assistant Dean of the Business School
 AHEC: **Blaine Nickeson**, Interim Division Director, Student & Auxiliary Services

Established in 2004, the Downtown Denver Leadership Program engages and familiarizes metro area leaders with downtown Denver's unique opportunities and challenges. The program is an intense immersion in urban issues, policies and practices, and involves a project that challenges the participants' ability to research, analyze and collaborate. The Leadership project for 2008 will look at one aspect of the 2007 Downtown Area Plan (DAP), specifically the pedestrian environment of downtown. The new Downtown Area Plan provides an updated vision, goals and recommendations for downtown in the next 20 years, replacing the 1986 Downtown Area Plan.

To see a complete list of the 2008 Participants go to: <http://www.downtowndenver.com/2008DDLPM.htm>

CAMPUS POLICE IS HERE FOR YOU!

The Auraria Campus Police Department is in charge of the Safety and Security for the Auraria Campus, serving the University of Colorado Denver downtown Denver Campus, Metropolitan State College of Denver, and the Community College of Denver. Responsibilities of the Department include the protection of life and property, detection of crime, enforcement of laws and regulations, investigations, traffic control and building security.

The Campus Police Department employs full-time fully certified, State of Colorado Peace Officers, full-time Dispatchers, full-time Security Officers and Hourly Student Guards.

All of our Officers respond to calls for service 24 hours a day, 7 days a week. These calls range from serious felonies to parking problems. Officers are also involved in crime prevention programs, investigations, self-defense programs and special events. In addition, the Auraria Campus Police Department provides police and security services to retailers and off campus users at the 250,000 sq. ft. Historic Tivoli Brewery which also houses the Student Union. As of September 1, 2008, the Auraria Campus Police Department now provides Police Services for two UC Denver Buildings across Speer Boulevard including 1380 Lawrence Street and the Cu/Dravo Building at 1250 14th St.

Officers conduct foot patrols, bike patrols, directed patrol assignments, and other proactive efforts to be highly visible in the campus community. We feel that this visibility goes a long way in deterring crime on campus. Current Campus Crime Statistics for each of the campus institutions is available at:

For CCD: www.ahec.edu. <http://www.ahec.edu/campuspolice/ccd-clery.pdf>

AURARIA CAMPUS SECURITY REPORT AVAILABLE

The Clery Act requires that a copy of the Auraria Higher Education Center Campus Annual Security Report be available to all currently enrolled students and employees prior to October 1st of each year. This report includes statistics for the previous three years concerning reported crimes that occurred on campus, in certain off campus buildings or property owned or controlled by any of the institutions (includes Auraria Higher Education Center, Community College of Denver, Metropolitan State College of Denver and University of Colorado Denver Downtown Denver Campus) and on public property within or immediately adjacent to and accessible from the campus. The report also includes institutional policies concerning campus security, such as policies concerning sexual assault and other matters. You can obtain a copy of this report by contacting the Auraria Campus Police Department or by accessing it on the AHEC website at: <http://www.ahec.edu/campuspolice/casr.htm>

Jay Corbett

At the end of last June, Jay Corbett of the HVAC Shop in Facilities Management, participated in the Muscular Sclerosis (MS) 150 bike ride to raise funds for research and local programs. Jay was one of 6,000 participants riding a two-day 150 mile route from

Front Community College to Colorado State University and back. Jay's "champions" were his mother Alyce Corbett and Lynessa Walker, wife of AHEC Paint Shop Supervisor, James Walker. Jay's heart is evident when he says, "This is an event I firmly believe in and I will do my part with the help of those generous donors to raise money for this crippling and sometimes fatal disease."

2008-2009 State Holiday Schedule

The remainder of the fiscal year 2008-2009 Holiday Schedule will be celebrated on the Auraria Campus as follows:

H3	November 27, 2008
H4	December 25, 2008
H5	December 26, 2008
H6	December 29, 2008
H7	December 30, 2008
H8	December 31, 2008
H9	January 1, 2009
H10	May 25, 2009

To better serve staffing needs, some divisions have been allowed to assign holidays to different days throughout the year. For these departments, employees should contact their supervisor regarding the use of leave. Questions regarding holidays or holiday leave should be directed to your supervisor or your Human Resource Office. The entire holiday schedule can be viewed at: <http://www.ahec.edu/hr/HolidaySchedule.htm>

Hyper links are active on this page

Auraria Campus Snow Closure Procedures

As the first snowflakes of the year are beginning to fly, it is time again to be aware of the Auraria Campus snow closure procedures.

When inclement weather or emergency conditions require the campus to be closed, the decision will be made through the AHEC Executive Vice President for Administration's (EVPA) office with the Campus Presidents/Chancellor on the advice of the Auraria Campus Police Chief. The decision to close the campus will be made only under those extreme weather conditions which pose an immediate health or safety hazard to the campus constituents.

The decision to close the campus will affect the entire campus—all campus institutions, departments and buildings (except the Tivoli Student Union). No individual department may announce an independent closure decision. The branch campuses for CCD and Metro State will also close when the Auraria Campus closes. The University of Colorado will determine whether off campus or branch campuses are to be closed. The Auraria Higher Education Center is exempt from the State Inclement Weather Policy as established for state employees, and neither the Governor nor the mayor of Denver is involved in the decision to close the Auraria Campus. Only persons formally designated by the EVPA are authorized to notify the media of closures. The decision to close the campus will be made on a day-to-day basis.

The primary criterion for the decision to close the Auraria Campus is the condition of the campus and its immediate surrounding areas. Weather closure decisions will be made as early as possible to permit adequate communications to faculty, staff and students. Each institution will implement the closure decision through its own internal communication procedures. Students, faculty and staff are instructed to call the **24 hour emergency information hotline at 303-556-2401**, watch local television broadcasts for campus closure information, and view the AHEC website for updated information at www.ahec.edu. Voice mail broadcast messages will be placed on individual campus extension prefixes 556 and 352 when possible.

CAMPUS RECYCLING UPDATE

The Auraria Higher Education Center recently announced a new recycling program for the Auraria Campus. In April of 2008, a pilot program called Single Stream Recycling was introduced as a part of Auraria's Sustainable Campus Program. Offices and common areas in the Administration Building, Plaza Building, and the Tivoli Student Union were supplied with new, blue single stream collection bins. Since its inception, this program has really taken off! Due to the success of this program, the collection containers are now larger and the frequency of pickups has increased. The Tivoli Student Union alone is reaching close to a 60% diversion rate, which means a lot less trash is headed to the landfill.

Recently, the program has expanded to include all Facilities Management Buildings and all of the modular classrooms and offices. By October 1, the Central Classroom Building and Ninth Street Park Houses will be added to the program. In addition, the Sustainable Campus project has just approved the purchase of enough containers to expand the program to all buildings on the Auraria Campus including the campus grounds, with an anticipated completion date of January 20, 2009 to coincide with the start of the spring semester.

Single stream recycling takes advantage of the fact that recyclable materials can be commingled when collected and then separated later at the recycling center. Now items such as aluminum cans, steel containers, metals, newspaper, glass, corrugated cardboard, and telephone books can be included by using the same recycle container. Wet trash and food items are not allowed.

This pilot program can only be successful if we all do our part and use it responsibly. If you have any questions regarding Single Stream Recycling, call the AHEC Environmental Health and Safety Department at 303-556-8397.

"Altogether" Recycling

- | | | |
|----------------------|------------------------|-----------------------|
| Glass Bottles | All Kinds of Paper! | Shredded |
| Aluminum Cans | Office Color Newspaper | Envelopes (window OK) |
| All Plastics (#1-#7) | Glossy Junk Mail | Post-Its |
| Tin | Files Folders | Phone Books |
| Cardboard | | Ream Wrappers |
| Magazines | | Carbonless |
- (Staples, paper clips, binder clips, spirals OK)

It all goes in ONE bin!

Questions? 303.556.8397 or scp_contact@ahc.edu

SCOOTERS ON THE AURARIA CAMPUS

Chances are you've seen the scooters parked around various campus bike racks. In response to requests and to help provide a cheap parking alternative, the Auraria Campus is now treating scooters with an engine 50cc's and below like bicycles. State law allows these types of scooters, since with the smaller motor they are meant for local driving only, to be registered but not require a license plate. The City of Denver has permitted these scooters to park at bike racks (you'll see them all over downtown Denver). In an effort to promote an efficient means of transportation and let scooters park like they do in the rest of the City, they Campus made the decision to allow scooters starting fall of 2008.

Currently, the campus is requesting scooters to park at four locations on campus. These locations were selected so that the scooter rider could easily access a rack without driving in pedestrian only areas. The campus will be reviewing these locations and possibly adding more scooter parking locations, along with more bike racks through the campus, likely by spring 2009.

Campus Police can ticket any scooter that is not parked at one of the specified locations or that is locked to a tree or railing as this causes accessibility problems for those walking through campus. Scooters must comply with the Bikes, Scooters, Blades 'n' Boards Regulations (posted on www.ahec.edu). Following are the locations where scooters can park for free on the Auraria Campus. Any future revisions to these locations will be posted on the AHEC website (www.ahec.edu).

- At the bike racks on the north side of Tivoli near the Tivoli Auraria Parking Structure
- At the bike rack in front of the PTC off Lawrence Way
- At the bike rack on the north side of the Administration Building
- At the bike rack at the turnaround of Curtis Street adjacent to Arts/West Classroom

If your scooter has an engine larger than 50cc's, you are still required to pay for parking in the various lots on campus. If you park in spots designated for motorcycle parking (Lots E, H and R), you will receive a discount on the daily parking fee. For more information go to http://www.ahec.edu/campus/Bikes_Blades_Boards.pdf.

PEDESTRIAN CROSSING IMPROVEMENTS

Have you heard the chirping along 7th Street (at Lawrence and Walnut) and looked for the rather annoying bird? It's actually not a bird, just part of the pedestrian improvements happening around the campus. AHEC, in partnership with the Disability Service Offices for each of the institutions, was successful in requesting pedestrian improvements along 7th Street from the City of Denver. The pedestrian signals at Lawrence and Walnut Streets were improved over the summer 2008. Eventually these improvements will be found at the campus crossings along Colfax and Speer Boulevard. Pedestrian countdown heads (telling you how much time is left to cross an intersection) are already in place at 9th Street & Auraria Parkway, as well as Speer and Larimer (campus side only).

While these improvements do not lengthen the amount of time pedestrians have to cross intersections (timing is set by a national standard and cannot be changed at certain intersections), the campus does believe that these help pedestrians know when and when not to cross. Additionally, with the Auraria West Light Rail Station located west of 7th Street, the Disability Services Offices felt it important that the campus' blind students be able to safely cross the road.

We hope the campus population finds these improvements help them get across the campus more safely.

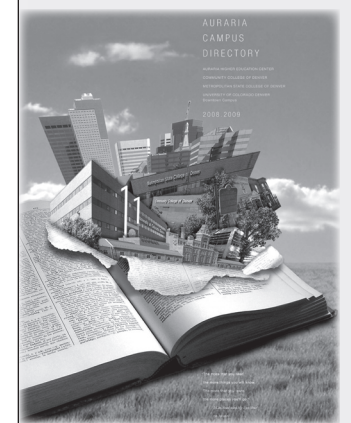

AURARIA CAMPUS SCHEDULED ELEVATOR REPAIRS

The following elevators are scheduled for repair and modernization over the next few months. Signage indicating alternate elevators will be posted. If you have any questions, please contact Pete Hagen, Project Manager at 303-556-2209. Thank you for your cooperation!

Dates of Repair/Modernization	
North Classroom Building (East) (N2)	Repair 8/04 – 10/06/08
Arts Building (South) (A1)	Repair 8/18 – 9/15/08
Plaza Building Elevator (Southwest) (P1)	Repair 9/08 – 9/29/08
Arts Building (North) (A2)	Repair 9/22 – 10/20/08
Plaza Building (Northwest) (Freight)	Repair 10/06 – 11/03/08
Library (East) (L1)	Repair 10/13 – 11/10/08
Library (West) (L2)	Repair 10/27 – 11/24/08

Auraria Campus Directory to be distributed in October 2008

The 2008/2009 Auraria Campus Directory is scheduled for distribution at the end of October 2008. This version of the campus directory is printed annually each fall and contains contact information for campus faculty and staff including names, titles, departments, telephone numbers, fax numbers and e-mail addresses. The directory is a collaborative effort between the four entities of the Auraria Campus. Clicks! Copy & Printing Services will coordinate the ordering and distribution of the directory with each institution.

The Auraria Campus also provides an on-line campus directory which is updated throughout the year. To access the online directory, go to the Auraria Campus Directory at www.ahec.edu/phone. Individual institutions may have direct links to the online directory on their websites as well.

All information captured for both the printed and the online directories is used to create mailing labels used by Clicks! Printing Services for on-campus mailings, the campus telephone operators, and by Campus Mail Services to locate individuals or departments. Employees are encouraged to verify the information displayed and report any inaccuracies to the following institutional contacts via email:

AHEC: Freddy Arck at arckf@ahc.edu

CCD: Em Pierce at pitiporn.pierce@ccd.edu

Metro State: Barbara Garcia at garciba@mscd.edu

UC Denver: Cathy Sprinkle at cathy.sprinkle@ucdenver.edu
